

Dear Family,

How are you doing? I am doing well. We have been going to so many awesome places here while training. Most recently, we went to this place called Pasadena. I will admit, I was a bit overwhelmed at first, but now I cruise the streets and it is no big deal. We rode the train while we were there and it was a bit loud but it did not bother me I made sure to keep my instructor safe around the edge of the platform. What we also finished with was our traffic training! It was so cool, my instructor put a blindfold on and I kept him safe and made super smart decisions to keep that car away from us. He was so proud of me and praised me after that route; I enjoyed that! I still have some things to work on but I am enjoying it here and I want to keep learning. When I am not working, my roommate and I get to play around, and sometimes we even get extra time to run in the community area, the kennel techs love us!

Love and miss you!
