

Dear Family,

How are you doing? I hope you are able to stay safe and healthy. We have been so busy here at GDA. We start all of our mornings at GDA running around in the community area. It is so much fun playing with toys and all of my friends here. Sometimes, if we are extra good the trainers give us treats before we even have breakfast, you know I am first in line for that! After we are done running, we go back inside to have our breakfast. Then, the trainers take us in to their vans and we go for a car ride! Once we get to our destination, the trainers take us out one at a time and work with us individually. We get some much love, attention, and treats on our walks. Once we finish our walk, they put us back in to the crate in the van and we get to nap until we get back to GDA around lunchtime. Sometimes, we even get to go out a second time in the afternoon. If we do not go out a second time, the kennel techs let us play in community again or they put us on a tie down and give us parfaits! I have to admit, I am not sure which one I like better. That is what our typical day at GDA is like. I love it here at GDA and I want to stay to keep learning new tricks and keeping up with my mechanics.

Wags and kisses,

Mamba
